THE SAFEST, MOST  
EFFECTIVE METHOD OF  
TOXIN REMOVAL

ADVANCED  
TRS

PRODUCT GUIDE

# THE SCIENCE OF ADVANCED TRS

## SAFE & EFFECTIVE TOXIN REMOVAL

Advanced TRS facilitates detoxification at the cellular level to attract, trap and remove heavy metals, toxins and other contaminants through the body's natural process.

### ZEOLITE—THE MAGIC INGREDIENT

On its own, your body has to go to a lot of work to neutralize and remove toxins, if it is able to remove them at all. For example, lead and mercury are notoriously difficult to remove. And as a person's body becomes more toxic with heavy metals, it becomes less able to remove them.

Zeolite, the active ingredient in Advanced TRS, facilitates your body's ability to extract harmful toxins. As zeolite is inert in your body, your body doesn't recognize it as anything out of the ordinary. However, heavy metals, radioactive elements and other toxins are extremely attracted to the cages-like structure of the zeolite molecules.

*Because zeolite uses nanotechnology and is encapsulated in water clusters, it will go anywhere in your body water can.*

DIAGRAM OF ZEOLITE MOLECULE

### NANOTECHNOLOGY = EFFECTIVENESS

Nano means that the particles are very small. By making the particles smaller, more of the cages are exposed to trap toxins. Coseva uses standard particle measuring equipment every production run to ensure the purity, size and saturation of the manufactured zeolite in water.

By forming a true colloidal suspension where the zeolite is held inside a water cluster, the zeolite is able to cross the blood brain barrier. Without this colloidal suspension the zeolite would not cross that barrier. By nano-sizing the zeolite, Coseva is able to place more zeolite into more clusters of water making this solution very effective in all parts of the body.

Advanced TRS is a proprietary manufactured clinoptilolite formula. Your body has never experienced the ability to extract heavy metals, toxins and other contaminants like this before.

One serving will not do a complete detox. Over time, consistently taking this product will remove toxins safely, gently and without the typical effects of harsh medical chelation agents.

# ADVANCED TRS

## WE LIVE IN A TOXIC WORLD.

Lead, mercury, aluminum and arsenic have unfortunately found their way into our bodies due to our modern environment. Fortunately, Coseva's Advanced TRS uses nanotechnology to extract heavy metals and contaminants that the body cannot otherwise eliminate.

# FAQs

## WHAT HEAVY METALS AND TOXINS DOES ADVANCED TRS REMOVE?

Advanced TRS removes any element that has a positive ionic charge, such as mercury, lead, nickel, aluminum, cadmium, arsenic, etc.

## HOW IS ADVANCED TRS DIFFERENT FROM OTHER FORMS OF LIQUID ZEOLITE ON THE MARKET?

Advanced TRS is the purest form of zeolite available on the planet. Through our proprietary processes, the zeolite molecule is nano-sized and encased in a water cluster, which allows it to travel in the body wherever water goes.

## HOW LONG DOES ADVANCED TRS STAY IN THE BODY?

Advanced TRS stays in the body for 6 hours. As such, it is recommended that you take it morning and night.

## HOW DOES ADVANCED TRS NOT ABSORB ESSENTIAL NUTRIENTS FROM THE BODY?

The essential minerals are in a neutral salt form in our bodies. The zeolite is not attracted to the lesser ionic charges that these nutrients possess. The toxins, however, are not used in the body and thus are not converted to salts but rather sequestered in the body.

## IS ADVANCED TRS SAFE FOR CHILDREN?

Yes, it is safe for children. As a rule of thumb, the usage rate is one spray for every 30 pounds of weight.

## WHY IS ADVANCED TRS CREATED WITH A MANUFACTURED ZEOLITE?

The purity and the ability to control the size and structure of the molecule allows us to achieve a smaller size and greater saturation rate. Natural zeolites must undergo a cleansing process, which cannot achieve the purity and effectiveness of Advanced TRS.

## IS ADVANCED TRS SAFER THAN MEDICAL CHELATION TREATMENTS?

Yes. Medical chelation agents are very biologically active and remove metals by an active chemical process. Advanced TRS is completely passive and not biologically active in the body, making it much safer.

## COULD ADVANCED TRS CAUSE MERCURY FILLINGS, DENTAL WORK OR ARTIFICIAL JOINTS TO LEACH INTO THE BODY?

No, Advanced TRS will not cause leaching of metals into the body from items such as fillings, artificial joints, etc. Those are bound and are electrically neutral, which is why they last as long as they do. They will not be attracted to, or removed by, the zeolite.

### Supplement Facts

Serving Size: 5 sprays per day      Servings Per 28mL Container: 28

Amount Per Serving	% Daily Value*
--------------------	----------------

<b>Proprietary Processed</b> Manufactured Clinoptilolite 1.0mL Other Ingredients; Pure Water	†
--	---

\* Percent Daily Value (% DV) are based on a 2,000 calorie diet.

† Daily value not established

**Suggested Use:** Take 2 sprays in the morning and 3 sprays in the evening each day by mouth.

**Warning:** If you are pregnant, breastfeeding or taking prescription medications, consult your physician prior to use. KEEP OUT OF REACH OF CHILDREN. Do not use if tamper evident seal is broken. Store at controlled room temperature (59° - 86°). Avoid excessive heat and humidity.
